Using a working set limited to 1050 pages and 41 pages of data storage (excluding image)

Total number object records read (both passes): 807
of which 408 were in libraries and 45 were DEBUG data records containing 3220 bytes

Number of modules extracted explicitly = 1
with 22 extracted to resolve undefined symbols

58 library searches were for symbols not in the library searched

A total of 9 global symbol table records was written
